OGH Partners with Vector Health

Ochiltree General Hospital has partnered with Vector Health to assist patients with finding financial support for their medical bills. Through this program, Vector Health screens patients to identify and connect them with thousands of potential financial assistance options. These screening services are provided at no cost to eligible individuals. The initiative aims to ensure that financial hardship does not prevent members of local communities from receiving necessary medical care. Patients with questions about their bills or who would like to see if they qualify can reach Vector Health directly by calling 806-228-7359.

Big News For Our Community

If you've received a bill from us and aren't sure how you'll cover it, there may be more help available than you know. We can now screen for thousands of programs on your behalf — **at no cost to you.**

Expanding Care: Advanced Childhood Apraxia Training

Speech-Language Pathologist Logan Reagan, M.S., CCC-SLP, recently completed an advanced workshop on Childhood Apraxia of Speech led by Dr. Edythe Strand. This specialized training focuses on Dynamic Temporal and Tactile Cueing (DTTC), an evidence-based method designed to help children improve speech movement and clarity. We are proud to bring these specialized techniques to Ochiltree County Hospital District, expanding the expert pediatric care available to our local families.

Logan Reagan, M.S

OGH EMS transfers offer critical support to Air Med Crews

When a critical patient requires specialized care, seamless ground transitions and rapid flight times are essential. OGH EMS collaborates closely with regional air medical crews to coordinate fast, efficient transport. These coordinated partnerships allow advanced lifesaving care to begin locally before patients are transferred other facilities.

Lunch & Learn for August: Men's Health

We keep up with oil changes and tire rotations, but when was the last time the men in our lives got a proper checkup? Join us for our August Lunch & Learn with Dr. DeWitt as we "pop the hood" on men's health. Whether you're taking care of your own health or looking out for a husband, father, or son, all are welcome to attend! RSVP 806-648-7402.

OGH PULSE

Employee Recognition

Candie Pickett
Social Services

Employee of the Month

We are thrilled to celebrate our social worker, Candie Pickett, LBSW, as our July Employee of the Month! Candie is an incredible advocate for OGH patients and their families, constantly stepping up to offer guidance, patience, and expertise when it matters most. Time and again, her willingness to go above and beyond has made a meaningful difference for countless loved ones navigating stressful situations. Whether she's offering key education to fellow staff or jumping in to lend a helping hand, her compassion and professionalism make her so deserving of this honor.

From the Staff

On behalf of all OGH employees, I would like to extend our sincere appreciation to the members of First Baptist Church for the wonderful cookout they provided for our hospital employees and their families. Your kindness, generosity, and thoughtfulness meant so much to all of us. Thank you for taking the time to support and encourage our team. We are truly grateful for your generosity.
