Established to provide a wide range of healthcare services in the comfort of the patient's home, Ochiltree General Hospital Home Health and Hospice works to support patients and their families.

HOME HEALTH

✓ What is home healthcare?

Home healthcare is a medical intervention to bring the patient back to full health. Medications and procedures are designed to assist the patient in meeting their individual Home Health goals with a positive outcome. Home healthcare is proactive healthcare and is comparable to the care you or your loved one would receive in the hospital.

✓ How does home healthcare work?

In order to receive home healthcare, you must be homebound with a medical need which a physician has determined requires home health services. Home healthcare can be requested by you, your family or your physician. After this process is completed, OGH Home Health personnel meet with your physician to determine a plan of care.

✓ How often will the agency visit my home?

Registered nurses, licenced vocational nurses, therapists and other professionals come to your home as needed, based on your care plan. Your physician is informed regularly about your condition.

✓ Why should I choose you?

We are a service of Ochiltree General Hospital, providing continuity of care from the hospital to the home. Not only do we offer skilled care from a group of well- trained professionals, but we are part of your community. We care about you, we care about our community and we strive to provide you with a standard of care worthy of being called the Heart of Our Healthy Community.

OUR SERVICES

As an affiliate of Ochiltree General, Home Health and Hospice offers continuity of care from the hospital to the home coordinated and provided by compassionate well-trained professionals who focus on the patient's specific needs.

HOME HEALTH

Ochiltree General Hospital Home Health provides quality home healthcare to the homebound patient. Services include, but are not limited to:

- Skilled nursing visits
- Patient and caregiver education
- Physical therapy
- Social services
- Nursing aide care

Each patient's plan of care is designed to fit their individual needs. OGH Home Health strives to teach both the patient and their families skills to help with the care of the patient. Most of the Ochiltree General Home Health professionals are hometown people working in the community they chose to continue calling home. At Ochiltree General Home Health, neighbors are truly caring for neighbor

HOSPICE

Hospice services at Ochiltree General Hospital focus on adding more life to every day, when medical science can no longer add more days to life. OGH Hospice strives to offer quality of life by caring for the physical, emotional, social and spiritual needs of the person facing a terminal illness. Skilled nursing and therapeutic services are provided in accordance with the orders of the patient's physician.

SERVICE AREA

Ochiltree General Hospital Home Health and Hospice services Ochiltree, Lipscomb, Hansford, Hemphill, Hutchinson and Roberts counties.

HOSPICE CARE

✓ What is hospice care?

Hospice care at Ochiltree General Hospital involves a group of professionals and volunteers dedicated to a special way of caring for terminally ill people and their families. When medical science can no longer add more days to life, our mission is to add more life to every day. OGH Hospice brings nurses, aids, social workers, chaplains and volunteers into your home to share the last days, bringing dignity, compassion and care to the terminally ill patient and his or her family.

✓ What hospice services are available?

OGH Hospice offer several levels of care: • Staff and volunteers can provide routine home care. We will also help teach family members skills to care for the patient.

- When the family needs relief from the strain of providing care, OGH Hospice provides respite care to get family members some time away.
- At times, the patient may require hospitalization for symptom management. During that time, OGH Hospice is there to provide continuity of care.
- During bereavement, OGH Hospice offers support for families for up to one year after the death of their loved one.

✓ Why should I choose you?

Ochiltree General Home Health and Hospice is blessed with a group of volunteers who make themselves available to patients' families during their time of need allowing families to take care of needs outside their homes without worrying about their loved one while they are gone.
